

# Understanding Acquired Brain Injury and behaviour change

A guide to managing challenging behaviours

## Table of Contents

Acknowledgments.....	5
About this resource.....	6
Section 1 - Understanding Acquired Brain Injury .....	7
Introduction .....	7
Neuropsychological basis of cognition and behaviour .....	7
Introducing the case study of Matthew .....	12
Section 2 - Impact of cognitive and behaviour change following ABI .....	14
The brain's executive system.....	14
Section 3 - Understanding behavioural change .....	20
ABI and behaviour .....	20
Thinking about behaviour .....	25
Tools for developing helpful attributions.....	30
Identifying the pattern of behavioural escalation .....	32
Replacement behaviours.....	34
Section 4 - Analysing behaviour using the ABC model .....	35
The ABC model - <i>Antecedents &gt; Behaviour &gt; Consequences</i> .....	35
Antecedents .....	36
Consequences .....	42
Natural and logical consequences.....	48
An ABC example .....	53
Section 5 - Documenting a behavioural support plan .....	57
Positive Behavioural Support Plan.....	57
Assessment within the ABC framework .....	58
Proactive strategies to manage antecedents.....	61
Managing the behaviour as it occurs .....	62
Plan consequences .....	63
Section 6 - Rehabilitation after an ABI .....	74
Can we expect improvement?.....	74
The Community Approach to Participation (CAP) .....	74
Neuroplasticity: the brain keeps adapting.....	79
Working relationships .....	81
Housing and support model .....	81

Goal setting.....	82
Routine .....	84
Limit setting .....	85
Section 7 - Keys for working with people with challenging behaviours after ABI .....	91
Teamwork .....	91
Use the ABC framework .....	91
Understand the brain - behaviour link .....	91
Build on strengths and exceptions.....	92
Identify replacement behaviours .....	92
Pick a starting point .....	92
Adopt a proactive approach.....	92
Plan natural and logical consequences .....	93
Promote skill development.....	93
Build role participation .....	93
Keep in mind the goal of managing challenging behaviours .....	94
